

CaluClean V54 500ml polish and protector

CaluClean V54 Polish and protective agent cleans and protects older and weathered car paint, plastic window frames, plastic siding, plastic coating on sheet pile profile, siding, etc. CaluClean V54 can be applied manually or with a polishing machine.

Instructions for use

Manual

Apply CaluClean V54 Polish and Protectant using a clean soft cloth or white pad. The weathered paint is brought to a high gloss by intensive rubbing, preferably with circular movements. Then rub with a cloth.

Polishing machine

Apply CaluClean V54 to the pad of the polisher. Rub the pad over the surface without turning it. After the polish and protective agent has been sufficiently distributed, the paint can be polished. Then rub the CaluClean V54 with a polishing fleece or a polishing cloth to obtain a super high gloss. Shake well before use.

Positive points

- + Cleans manually or with a polishing machine
- + Provides protection to older, weathered car paints
